

Created: 5/29/14

	COMET: Winter Weather Course Learning Plan	Type
1	Dynamics & Microphysics of Cool-Season Orographic Storms	Course
2	Freezing and Melting, Precipitation Type, and Numerical Weather Prediction	Course
3	Heavy Banded Snow	Course
4	Mesoscale Banded Precipitation	Course
5	Topics in Precipitation Type Forecasting	Course
6	Ensemble Forecasting Explained	Course
7	Inverted Troughs and Their Associated Precipitation Regimes	Course
8	Isentropic Analysis	Course
9	Slantwise Convection: An Operational Approach	Course
