

Updated: 9/8/14

	Forecaster Development Program (FDP) Numerical Modeling Training Learning Plan	Type
1	Model Fundamentals - version 2	Course
2	Understanding Assimilation Systems: How Models Create Their Initial Conditions - version 2	Course
3	Impact of Model Structure and Dynamics - version 2	Course
4	How Models Produce Precipitation and Clouds - version 2	Course
5	Influence of Model Physics on NWP Forecasts - version 2	Course
6	Intelligent Use of Model-Derived Products - version 2	Course
7	Bias Correction of NWP Model Data	Course
8	Preparing to Evaluate NWP Models	Course
9	Effective Use of High-Resolution Models	Course
10	Introduction to Ensemble Prediction	Course
11	Introduction to Ensembles: Forecasting Hurricane Sandy	Course
